As a retired teacher and substitute teacher, I thought your offer was great!!! I was and still am an avid user of the computer. It is an outstanding learning tool for students. The government was really shortsighted on the greatness of this offer. This is really too bad. Keep up the good work on the products you are developing for us!

Marilynn M Russell

ps I taught at Clover Park High school where Bill & Melinda have given money to help students. My grandson is now at that school as a 9th grader taking advantage of their wonderful gift. THANKS!!!! Part of his project that he is doing for math, computers, history is to prepare a PowerPoint presentation (with digital pictures too) to culminate his work. Neat huh!!!!
